

## Providing solutions from inventory to market.

When creating a new product or producing more of a current product, you need a company who will support you in every stage of development. Manufactured Assemblies Corporation provides valuable post-manufacturing product support services and supply chain management throughout the entire lifecycle of your product.

MAC manages your inventory to save you space and reduce costs associated with long lead times and delays. You will know where your materials and products are at all times, so you can have peace of mind during the entire manufacturing process, from procurement to distribution.
